Contact Number:	+1 212 963 9196
Partnership:	sdgfund

EVENT OBJECTIVES

The main objective of the SDG-Fund is to bring together UN agencies, national governments, academia, civil society and business to address the challenges of poverty. The Conference will be organized for UN delegates, UN staff, the private sector, international financial institutions, top academics and practitioners working on relevant issues, business associations, and relevant civil society representatives. The goal of the conference is to add a sustaining and longer-

term outlet from which to engage with constituents, leading to greater learning, exploration of possibilities for partnerships, and development of a Community of Practice – where government officials have a standing resource from which to engage further with the business sector.

ADDITIONAL INFORMATION

To enroll in this online course:

1.) Create an e-learning account if you don't already have one using this link: https://www.learnatunitar.org/
