### ANTECEDENTES

Podoconiosis is a non-infectious tropical disease characterized by steadily progressive foot and leg swelling (lymphoedema). It is commonly confused with lymphatic filariasis.

### OBJETIVOS DEL EVENTO

- Understand epidemiology of podoconiosis at national and district levels;
- Describe the clinical aspects of podoconiosis;
- Understand how the diagnosis is made;
- Explain how to manage lymphoedema; and
- List how the recording and reporting of the disease is done.

## PÚBLICO OBJETIVO

This online course aims at providing health workers with the basic knowledge to understand the epidemiology, diagnosis, treatment, impact and reporting of this important disease.
