ANTECEDENTES

The Autosobriety Training Programme is the result of a partnership between UNITAR and Pernod Ricard which consists of educational tools that aim to contribute to reducing and preventing alcohol-related traffic fatalities and

injuries, and ultimately advance UN Global Road Safety Performance Target 9: By 2030 halve the number of road traffic injuries and fatalities related to drivers using alcohol.

OBJETIVOS DEL EVENTO

By the end of the workshop, participant will be able to:

- Understand statistics and the impact of drinking and driving on people's lives.
- Identify drinking and driving as a key risk factor causing road traffic crashes amongst communities and stakeholders.
- Know more about legal frameworks around drinking and driving.
- Identify the different ways to prevent drinking and driving.
- Identify the effects of alcohol on driving performance by using virtual reality glasses

CONTENIDO Y ESTRUCTURA

The Autosobriety Training Program includes the following educational tools:

- An interactive online course available on the [UNITAR Learning Platform](#)
- A Virtual Reality video available in 6 languages on the [UNITAR Youtube platform](#)
