Digital tools, screening tools for UIS, waste mapping (United Circles)

Planet

Plazo: 5 Jun 2026

Tipo:	Webinar
Ubicación:	Web-based
Fecha:	9 Jun 2026
Duración:	2 Hours
Área del programa:	Environment, , Chemicals and Waste Management
Sitio web:	https://cordis.europa.eu/project/id/101178798
Precio:	0,00 US$
Correo Electrónico del Centro de Coordinación del Evento:	elena.dangelo@unitar.org
Colaboración:	Tech-Takeback UK

ANTECEDENTES

This webinar introduces participants to digital tools that support Urban-Industrial Symbiosis (UIS) and waste mapping within H4C hubs. Participants learn to use data-sharing platforms, and tools to identify and evaluate symbiosis opportunities. The module covers mapping, scenario simulation, visualization, and prioritization tools, helping participants understand tool interoperability,

strengths, limitations, and practical applications in urban-industrial contexts.

OBJETIVOS DEL EVENTO

- Understand the role and principles of digital tools in UIS
- Recognize different types of digital tools (mapping, assessment, simulation, visualization)
- Identify benefits for hubs and urban-industrial systems
- Use digital symbiosis and waste mapping tools effectively
- Simulate scenarios
- Apply scoring matrices to prioritize UIS opportunities
- Integrate digital tools into hub operations and identify next steps for local applications

PÚBLICO OBJETIVO

United Circles stakeholders, Hubs members and external stakeholders
