Área del programa:	Peacekeeping
Sitio web:	http://www.unitar.org/ptp
Precio:	0,00 US$
Correo Electrónico del Centro de Coordinación del Evento:	ptp@unitar.org
Colaboración:	ISSAT - DCAF

ANTECEDENTES

Security sector reform (SSR) is a nationally-owned process aimed at ensuring that security and justice providers are accountable to the state and its people; deliver effective, efficient and affordable security and justice services that meet the people’s needs; operate within a framework of good governance, rule of law, and respect for human rights; and are legitimate. SSR addresses a number of problems such as the ineffective provision of security and justice services; the inability of security and justice institutions to deliver their services equally in

response to the needs of all groups of society; the lack or absence of independent and well-functioning accountability and oversight mechanisms.

OBJETIVOS DEL EVENTO

The goal of the course is to offer an overview of the concept of SSR, highlight the key SSR actors and their roles and outline the implementation of SSR programmes.

OBJETIVOS DEL APRENDIZAJE

At the end of the course, participants will be able to:

- Define security sector reform;
- List the key SSR actors and describe their roles and responsibilities;
- Outline the implementation of SSR programmes.

CONTENIDO Y ESTRUCTURA

The course is structured in four lessons that will be covered over three hours:

- Lesson 1: Introduction to the concept of SSR
- Lesson 2: Understanding the SSR context
- Lesson 3: Key actors and coordination of SSR processes
- Lesson 4: International support to an SSR process

METODOLOGÍA

UNITAR PTP adopts an approach to training that highlights experiential and collaborative learning. This approach focuses on the learning needs, interests and styles of participants to ensure the relevance and retention of content and puts particular emphasis on the active participation of learners through practice-oriented learning environments.

UNITAR PTP’s approach allows participants to share knowledge and experiences and contribute dynamically to the learning process. Through this process, participants not only acquire information but also contribute to the construction of knowledge in a way that is meaningful and directly applicable to the reality of

peace operations. Instructors guide participants through this process, delivering and conveying information, clarifying doubts and supporting participants through different activities.

UNITAR PTP’s approach to training puts particular emphasis on monitoring and evaluation. This process continuously develops course structure and activities to better suit participants’ areas of interest. This also allows for a review process that systematically improves course design and implementation for future versions of the course.

PÚBLICO OBJETIVO

The course is designed for national and regional military and police personnel of every rank and function serving or interested in serving in peace operations. The course also addresses a broad audience of civilians, from international and regional organizations, governmental and non-governmental organizations, universities and research centres working or interested in working with peace operations.

Participants are not expected to have prior experience in or knowledge of protection of civilians. However, as this is an advanced course, participants must:

- Have a sound understanding of the structure and functioning of a peace operation;
- Have a university degree in a relevant area with proven interest in security sector reform (BA or equivalent) or the equivalent working experience in a relevant field (2 to 4 years);
- Have good command of English language (reading and writing);
- Be computer literate.

INFORMACIÓN ADICIONAL

The course is based on level one "Introduction to Security Sector Reform" course developed by the International Security Sector Advisory Team (ISSAT).

Technical Requirements

UNITAR recommends the following as a minimum in hardware and software to take our e-Learning courses. Please consult your Network Administrator or Systems person to ensure that you have the following:

- Platform: Windows 95, 98, 2000, NT, ME, XP or superior; MacOS 9 or MacOS X; Linux
- Hardware: 64 MB of RAM, 1 GB of free disk space
- Software:
    - Adobe Acrobat Reader (click here to download for free)
    - Adobe Flash Player (click here to download for free)
    - Microsoft Office (Windows or Mac) or Open Office (click here to download for free)
- Browser: Internet Explorer 7 or higher (click here to download for free); it works better with Firefox 3.6 or higher (click here to download for free)
- Note that JavaScript, Cookies and Pop-ups must be enabled
