ANTECEDENTES

Efficient and eloquent public speaking is an invaluable asset in the toolbox of any diplomat or official representative in the international arena. This workshop has precisely been designed with this concern in mind to assist participants in developing their own speaking and leadership skills, in the context of a variety of occasions during which diplomats and government officials are expected to speak

on behalf of their governments, be it in public within the United Nations system, in formal or informal sessions and discussions, during international meetings and conferences etc.

The workshop will stand as an opportunity for the participants to develop their ability to prepare, structure and deliver eloquent and well tailored speeches thanks to a training strategy founded on a balanced combination between our expert's theoretical input and a series of simulation exercises.

OBJETIVOS DEL APRENDIZAJE

The core objective of this workshop is to strengthen public speaking skills, and ensure that the participants fulfil the following learning objectives:

- Learn to communicate effectively before an international audience;
- Find out how to manage one's anxiety while speaking in public;
- Maximise the impact of one's speech on a given audience, notably to ensure that the key messages it holds are understood;
- Captivate and convince one's auditory;
- Be capable of setting clear and measurable objectives for each speech and presentation.

METODOLOGÍA

The methodology used for the training is very much based on the idea of "practical learning". As they are involved in a series of practical exercises and simulations, the participants will be progressively familiarized with a set of tools useful to enhance their speech preparation and delivery. The potential inclusion of visual elements in oral presentations will also be addressed, notably through whether or not these are relevant and recommended depending on the type of presentation sought to be delivered. Minutes before the workshop begins, the participants may be requested to record a short individual video presentation of themselves.
