#### ANTECEDENTES

Given the complexity and importance of the process to develop the post-2015 development agenda, UNITAR will be organizing a series of technical briefings, starting mid-February 2014 and continuing until September 2014, when intergovernmental consultations on the agenda are to start. The goal is to enable

participants to fully familiarize themselves with the process, progress and key outcomes of ongoing discussions between Member States. These briefings will also provide an opportunity to look at some of those aspects on which delegates feel there is insufficient information and/or where they would like to have a more in-depth analysis.

The Session 3 will focus on the results framework in the context of the Post-2015 Development Agenda, and will take place from 11:00 to 13:00 on 6 March.

## **OBJETIVOS DEL EVENTO**

Strengthen knowledge for evidence-based decision making in the formulation of the Post-2015 Development Agenda, and, more specifically,

- Assist participants to access the most up-to-date and essential information coming from the numerous processes that will contribute to the Post-2015 agenda, and key outcomes of ongoing Member States' discussions in various fora, as well as allowing newly arrived delegates to 'catch up';
- Provide a dynamic and interactive space where delegates can exchange views on the Post-2015 development agenda and have a more in-depth discussion, as needed.

The Session 3 will focus on the results framework in the context of the Post-2015 Development Agenda.

### **The learning objectives of the Module 3**

After completing the module, participants should be able to:

- Place the Post-2015 process in perspective, based on a good understanding of the historical context in which the MDGs emerged;
- Set straight some of the misconceptions that have emerged over time about the meaning of the MDGs;
- Identify key aspects for designing a successful global agenda beyond 2015.

As a follow-up to the module, participants should be able to have increased "confidence" in:

- Applying the acquired information about the elements of an effective results framework to the current debate on the Post-2015 Agenda when supporting their country's participation in consultative and negotiation processes;
- Evaluating opportunities for influencing the ongoing debate, with a view to enhancing the chances for reaching an outcome that is fit for purpose.
