ANTECEDENTES

The Kingdom of Saudi Arabia is currently undergoing a period of major reforms and advancements, which are gradually but steadily fortifying the country's reputation at the international level. Owing to the foresight of the Crown Prince Mohammad bin Salman, the country has embraced its role as the heart of the Arab and Islamic Worlds to adopt a newly reinforced leading role in the region. As a result of this outlook and the adoption of the Vision 2030, based on Saudi Arabia's leadership, investment capabilities and unique strategic location, the nation has striven towards a more vibrant economy, a more equal society and an

increasingly transparent and effective governance.

The achievements reached by the Kingdom of Saudi Arabia have already been notable, with outstanding results in the realms of gender equality, fiscal consolidation, and a zero-tolerance policy for all levels of corruption among others. In order to maximize the success of this ambitious reformation endeavour, it is crucial for diplomats and government officials to gain further empowerment and strengthen their capacities in the field of multilateral diplomacy through tailored, focused training programmes. Through this effort, the Kingdom will have the opportunity to augment its potential accomplishments and gain a more united and centralised playing field in the pursue of its future diplomatic and policy objectives.
