ANTECEDENTES

In light of the ongoing COVID-19 pandemic, the United Nations Conference on Trade and Development (UNCTAD) and the United Nations Institute for Training and Research (UNITAR) have joined efforts to host a series of special Virtual Roundtable on the impacts of the pandemic on entrepreneurship and the needs to enhance its role in a resilient, green and inclusive recovery. The initiative aims

at providing insights to policy makers and MSMEs to better understand and navigate this unprecedented situation.

This 4-part series will bring together international experts to discuss the role of entrepreneurship in a post-COVID-19 recovery. Experts will be sharing practical experiences and views on challenges and opportunities entrepreneurs are facing in the current global crisis. They will also debate on policy reforms needed to enhance the role of entrepreneurship in a sustainable recovery and advancing the sustainable development agenda.

The new coronavirus pandemic is having unprecedented impacts across the globe, especially on human health and economic activities. In this context, governments are intensifying their efforts to combat the global spread of COVID-19 by enacting various measures to support public health systems, safeguard the economy and ensure public order and safety.

Likewise, entrepreneurs have looked for creative solutions to keep their activities afloat, addressing different challenges. The downturn in the global economy following this huge sanitary and health crisis represents unprecedented challenges, but will provide opportunities as well.
