

Unitar Online Catalogue
- Fall session 2021

People

Plazo: 30 Aug 2021

Tipo:	Course
Ubicación:	Web-based
Fecha:	16 Ago 2021 to 13 Sep 2021
Duración:	4 Weeks
Área del programa:	Decentralize Cooperation Programme
Sitio web:	https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...
Precio:	0,00 US\$
Correo Electrónico del Centro de Coordinación del Evento:	roadsafety@unitar.org
Colaboración:	Diageo

ANTECEDENTES

Road traffic injuries claim more than 1.35 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes- such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes- such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

OBJETIVOS DEL EVENTO

The e-Learning course “*High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol*” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users
- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

OBJETIVOS DEL APRENDIZAJE

Al finalizar el curso, el participante deberá ser capaz de:

- Identificar los principales objetivos de la Decada de Acción por la Seguridad Vial - Pilar 4 Usuarios más seguros, en el contexto de los Objetivos de Desarrollo Sostenible (ODS) relacionados con la seguridad vial.
- Comprender el uso del HVE (Alta Visibilidad) como un enfoque para cambiar el comportamiento de los usuarios de la vía y reducir las lesiones y fatalidades relacionadas con el uso de alcohol por parte de los conductores.
- Conocer los principales factores de riesgo que contribuyen a las lesiones y fatalidades relacionadas con el uso de alcohol por parte de los conductores.
- Identificar las principales medidas de prevención y control para reducir las lesiones y fatalidades relacionadas con el uso de alcohol por parte de los conductores.
- Conocer los principales factores de riesgo que contribuyen a las lesiones y fatalidades relacionadas con el uso de alcohol por parte de los conductores.
- 2030, los países de América Latina y el Caribe deberán haber reducido en un 50% el número de lesiones y fatalidades relacionadas con el uso de alcohol por parte de los conductores.

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4
- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol

CONTENIDO Y ESTRUCTURA

El curso está estructurado en 5 módulos, los cuales son:

- Módulo 1: Introducción a la seguridad vial y su importancia en el desarrollo sostenible. Se abordará el marco legal y las políticas de seguridad vial, así como los roles y responsabilidades de los actores involucrados.
- Módulo 2: El enfoque de alta visibilidad (HVE) como estrategia efectiva para reducir los accidentes de tránsito. Se explorarán los principios, componentes y aplicaciones del HVE en diferentes contextos.
- Módulo 3: Caso de estudio: México "Conduce sin Alcohol" (Don't Drink and Drive). Se analizará el diseño, implementación y resultados de esta campaña de prevención del consumo de alcohol al conducir.
- Módulo 4: Caso de estudio: República Dominicana "Tomatelo en Serio" (Take it seriously). Se examinará el impacto de esta campaña de concienciación sobre la seguridad vial.
- Módulo 5: COVID-19: Buenas prácticas y precauciones al usar dispositivos de seguridad. Se discutirán las medidas de bioseguridad y los protocolos de actuación durante la pandemia.

EN:

The course is comprised of 5 modules:

- Module 1: Road Safety as a Sustainable Development Priority
- Module 2: What is a High Visibility Enforcement Intervention?
- Module 3: Case Study: Mexico "Conduce sin Alcohol" programme
- Module 4: Case Study: Dominican Republic "Tomatelo en Serio" programme
- Module 5: COVID-19: Good practices and precautions when using Breathalyzers

METODOLOGÍA

El curso incluye lecciones interactivas respaldadas por lecturas adicionales y materiales de aprendizaje, acompañados de cuestionarios cortos para evaluar los objetivos de aprendizaje.

EN:

The course includes interactive lessons supported by additional readings and learning materials, coupled with short quizzes to evaluate learning objectives.

PÚBLICO OBJETIVO

Los beneficiarios directos del curso en línea serán los oficiales de aplicación de la ley y los funcionarios públicos responsables de la seguridad vial. El curso también está abierto a cualquier practicante o persona interesada que esté dispuesta a adquirir mayor conocimiento y facilidad en el manejo de temas relacionados con la seguridad vial.

EN:

Direct beneficiaries of the online course will be law enforcement officers and public officials responsible for road safety.

The course is also open to any practitioner or interested person who is willing to acquire greater knowledge and ease in handling road safety related issues.
