CONTEXTE

This online course is a self-paced course developed by the United Nations Institute for Training and Research (UNITAR) and the Shanghai Climate Week Executive Committee.

For this course to be the most rewarding and to teach you lessons that can be applied in your daily work, we recommend that you do not rush through the modules and complete a module in one sitting. Rather, you will better absorb the material by spending at least 3-4 days per module and stretching out the course over 4 weeks.
