ARRIÈRE PLAN

Neglected tropical diseases (NTDs) can cause significant disabilities and even death. These diseases affect more than 1.6 billion people worldwide, primarily among the most vulnerable communities. Access to safe water, sanitation, and hygiene (WASH) services plays a critical role in the prevention, management, and care of NTDs.

OBJECTIFS DE L'ÉVÉNEMENT

- Conduct an analysis to describe the role, importance, and impact of WASH in the prevention and care of NTDs.
- Identify, promote, and communicate opportunities for WASH and NTD actors to engage and seek collaboration.
- Access and use tools and resources to promote, initiate, lead, and support joint activities at national and sub-national levels.

CONTENU ET STRUCTURE

Approximate course duration: 2 hours.

Languages

This course is available in the following languages: English.
