Prix:	0.00 \$US
Email du point focal de l'événement:	Michaela.dorcikova@unitar.org
Partenariat:	The Global Surgery Foundation (1412)

CONTEXTE

Almost 1/3 of the global disease burden is surgical, yet over 5 billion of the world's population lack access to safe and effective surgical care.

The development of the existing and future surgical care workforce, through training and education, is key to unlocking the enormous potential in low- and

middle-income countries, where the need is greatest.

Significant high-quality content exists but is distributed across a multiplicity of sites: healthcare providers in low-resource settings often lack access to context and curriculum-appropriate training material.

OBJECTIFS DU COURS

SURGhub serves as a United Nations based collaborative repository platform for curated high-quality courses and training resources on Global Surgery. SURGhub provides a distinctive platform that enables healthcare providers working in low-resource settings to access the necessary training required to enhance and expand the provision of vital surgical care.

CONTENU ET STRUCTURE

E-learning platform with 132 courses.

AUDIENCE CIBLE

Frontline surgical care workers
