Personne de référence de l'événement:	elena.dangelo@unitar.org
Partenariat:	Basel Convention Regional Center Caribbean

CONTEXTE

Objective: the findings of the feasibility assessment for WEEE management in the Caribbean context will be presented to all participating country stakeholders. This workshop will provide a valuable opportunity for stakeholders, which may

include government officials, private sector industry representatives, environmental organizations, and other relevant entities, to come together for a focused discussion and collaborative exchange of insights. This feedback is crucial for refining the feasibility assessment, making it more contextually relevant, and ensuring that it aligns with the specific needs and challenges of the Caribbean countries involved.
