Resilience Action Planning - Implementing the Sendai Framework at the Local Level

People

Date limite: 14 Oct 2018

Type:	Course
Emplacement:	Web-based
Date:	8 Oct 2018 to 21 Déc 2018
Durée:	11 Weeks
Domaine du programme:	Environment, , Climate Change, , Governance, , Local Development
Site internet:	https://unitar.org/dcp/
Prix:	100.00 $US
Email du point focal de l'événement:	sdp@unitar.org
Partenariat:	The United Nations Office for Disaster Risk Reduction (UNISDR)

CONTEXTE

Over the past 20 years disasters have affected 4.4 billion people, caused USD 2 trillion of damage and killed 1.3 million people. Disasters have affected people

living in developing countries and, in particular, the most vulnerable communities within these countries.

Particularly in the context of increased urbanization, urban risk continues to rise. The vulnerability of cities to disasters is growing especially as poor people settle in high-risk urban areas. Unfortunately, the planning and development of cities has given little consideration to the consequences of hazards such as earthquakes, hydro-meteorological risks and others. The implication of this reality is the need for countries to focus on creating a safer world for urban dwellers and developing a series of innovative approaches to build resilience.

On the basis of these needs, UNITAR has developed the e-learning course Resilience Action Planning - Implementing the Sendai Framework at the local level.

OBJECTIFS DU COURS

This e-learning course aims to strengthen the capacities of government officials, especially those at the local level, and disaster management professionals to design and implement plans and programmes that reduce disaster risk and enhance resilience.

At the end of the course, participants will be able to:

- Raise awareness about the Making Cities Resilient (MRC) Campaign;
- Identify initiatives and best practices on how to integrate disaster risk reduction and climate change adoption into urban planning;
- Assess the risk management situation in their cities by using a tool;
- Develop a safe and resilient country/city action plan;
- Analyze the purpose, the goals and the outcome of the HFA and the Sendai Framework for DRR

CONTENU ET STRUCTURE

Content:

- Module 1: Disaster Risks Reduction Concepts and Introduction to Current Trends
- Module 2: Implementing the Sendai Framework for Disaster Risk Reduction (2015-2030)

- Module 3: Introduction to Making Cities Resilient (MCR) Global Campaign and Campaign Tools
- Module 4: DRR Assessment and Analysis Tools
- Module 5: Mainstreaming DRR into Sectoral Programmes for Socio-Economic Development
- Module 6: Developing, Implementing, Monitoring and Evaluating Safe and Resilient Action Plans

MÉTHODOLOGIE

This 6-module course includes interactive lessons that introduce the participant to the conceptual foundations of disaster risk reduction and urban resilience. The learning materials are presented through various media, such as text, graphs, images and video material, which contribute to better retention and enhance the learning process. Participants engage in a set of assessment quizzes, discussion forums, webinars with renowned experts and practical activities to facilitate interaction and experience sharing.

Besides the interactive lessons, participants engage in a set of practical exercises, where they can apply the knowledge gained to a real-life situation. Collaborative activities and discussion forums are other core elements of the course, organized to create collective knowledge and to facilitate interaction and experience sharing. The course also includes formative exercises as well as quizzes. A moderator guides participants through all the learning activities.

AUDIENCE CIBLE

The course is open to city and local government officials, disaster management professionals, and representatives from academic and training institutions working on disaster risk reduction.

INFORMATIONS SUPPLÉMENTAIRES

A certificate of completion will be issued to participants who achieve a minimum total score of 70%. A certificate of participation will be issued to participants who complete all mandatory activities but achieve a final score inferior to 70%.

BONUS: Those students who perform excellent results will be rewarded by being included in the “List of Experts” of UNISDR. As an expert, you will have the opportunity of being consulted and invited to several workshops/ events.
