CONTEXTE

This nonprofit project aims to bring together and publicize the 17 Sustainable Development Goals of the United Nations in the 2030 Agenda. This venture will be carried out through one of the most efficient and sustainable ways of locomotion that man invented: bike.

The 2030 agenda aims to unite sustainability with inclusion, and is committed to leave no one behind, adopting a focus on equality and based on the rights of

people at all levels.

It consists of an action plan for people, the planet and prosperity, at the same time that it aims to consolidate peace and requires the development of alliances for its implementation.

The team made up of Nicolás Caroli, Romina Medina and Ariel Hurtado have undertaken this adventure under the premises outlined above; in this way for 12 years will travel the world, ending in 2030, honoring the 17 Sustainable Development Goals and 169 goals that are summarized in the phrase "BREAKING THE HUNGER AND POVERTY OF THE WORLD, COMBATING INEQUALITY AND INJUSTICE , AND PROTECTING THE PLANET "

OBJECTIFS DU COURS
