### OBJECTIFS DU COURS

This inaugural event will bring some of the most esteemed bilateral and multilateral negotiators and experts together, to share and discuss the place negotiation has in economic, diplomatic and climatic spheres. In the spirit of the unprecedented times we are living in, this event will bring to light the human expertise that has become necessary in our ever-changing world.

The theme of the event revolves around the journey from conflict to peace; sessions will primarily discuss critical negotiation, conflict de-escalation, human rights, climate change, and peace in local contexts. A roundtable discussion will then bring all experts together to discuss common themes, the role of the United Nations, and the significance of private-public partnerships in negotiation.
