Breaking Boundaries: Unconscious Bias & Social Inclusion after the COVID-19 Pandemic

Population

Type:	Webinar
Emplacement:	Web-based
Date:	9 Juil 2020
Durée:	0 Days
Zone du programme:	Decentralize Cooperation Programme
Site internet:	https://unitar.org/sustainable-development-goals/people/our-portfolio/online-ev...
Prix:	0.00 \$US
Personne de référence de l'événement:	julia.genth@unitar.org

ARRIÈRE PLAN

In a rapidly changing world, we must process vast amounts of information and often very quickly. To simplify this process, our brains tend to assess characteristics, such as gender, ethnicity, educational background, and values by using automatic responses. In today's fast-paced society, this can lead to discrimination and a lack of inclusion.

The COVID-19 pandemic is having unprecedented impacts across the globe, especially on human health and economic activities. In this context, the outbreak affects all segments of the population, but is particularly detrimental to members of the most vulnerable social groups, including people living in poverty situations, older persons, persons with disabilities, youth, and indigenous peoples. They stand to suffer disproportionately both from the pandemic and its aftermath – whether due to limited movement, fewer employment opportunities, increased xenophobia, etc.

In light of the ongoing COVID-19 pandemic, the United Nations Institute for Training and Research (UNITAR) and Bahçeşehir University have joined efforts to host a special Virtual Roundtable on the impact unconscious and implicit biases have on our thoughts and behaviours, and therefore on humanity as a whole.

Under the theme of “building back better”, the event will bring together international experts to discuss how to foster inclusive workplaces and societies, and share practical experiences and suggestions on how to address biases on both an individual and institutional basis.

OBJECTIFS DE L'ÉVÉNEMENT

This virtual roundtable aims to bring together international experts to discuss lessons learned about responding to the COVID-19 pandemic and building back better.

OBJECTIFS D'APPRENTISSAGE

At the end of this virtual roundtable, participants will be able to:

- Define unconscious bias
- Describe the characteristics of inclusive and balance societies

CONTENU ET STRUCTURE

The virtual roundtable consists of a two-hour panel discussion covering the following topics:

1. The relevance of recognizing about how we get unconscious bias
2. How mindset and emotion drive behaviour
3. Confronting unconscious bias through emotional intelligence

AUDIENCE VISÉE

Participation is open to government officials, diplomats, staff of international organizations, development practitioners, faculty members, and administrators of educational institutions.
