### ARRIÈRE PLAN

Financial inclusion means “individuals and businesses have access to useful and affordable financial products and services that meet their needs delivered in a responsible and sustainable way”. As a basis for sustainable development, inclusive finance will be essential in enabling people to escape poverty by facilitating investments in their health, education, and businesses. It should be properly noted that financial inclusion is featured (sometimes explicitly) in at least seven of the seventeen Sustainable Development Goals. These include SDG 1 on eradicating poverty; SDG 2 on ending hunger; SDG 3 on profiting health and

well-being; SDG 5 on achieving gender equality; SDG 8 on promoting economic growth; SDG 9 on supporting industry, innovation and infrastructure; and SDG 10 on reducing inequality.
