ARRIÈRE PLAN

Road traffic injuries claim more than 1.35 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes- such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

## OBJECTIFS DE L'ÉVÉNEMENT

The e-Learning course “*High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol*” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users
- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

OBJECTIFS D'APPRENTISSAGE

Les participants doivent être en mesure de :

- identifier les objectifs de la Décennie d'action pour la sécurité routière - Pillier 4 : des usagers plus sûrs
- décrire les Objectifs de Développement Durable (ODD) 12 et 13 liés à la sécurité routière
- expliquer l'approche de l'application à haute visibilité (HVE) pour changer le comportement des usagers de la route, réduire les blessures et les décès liés à la consommation d'alcool
- décrire les objectifs de la Décennie d'action pour la sécurité routière - Pillier 4 : des usagers plus sûrs
- 2030, identifier les actions à mener pour atteindre les objectifs de la Décennie d'action pour la sécurité routière - Pillier 4 : des usagers plus sûrs

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4
- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol
