

Cervical & Breast Cancer Screening Training

Accelerating SDG Implementation

Type:	Workshop
Emplacement:	Nyamata, Bugesera district, Rwanda
Date:	30 Aoû 2021 to 31 Aoû 2021
Durée:	2 Days
Zone du programme:	Other
Site internet:	https://defeat-ncd.org
Prix:	0.00 \$US
Personne de référence de l'événement:	nima.wangchuk@unitar.org
Partenariat:	Ministry of Health of Rwanda

ARRIÈRE PLAN

Cervical cancer screening in Rwanda could not gain momentum as it was done by oncologists in the hospitals untill date. Now the Ministry of Health of Rwanda is decentralizing cervical cancer screening services to the district hospitals and to the health centers therein.

Bugesera is now the 8th district in Rwanda whose nurses are invited to this training to build their capacity to conduct cervical and breast cancer screening

and offer precancerous treatment by thermal ablation in health centres and LEEP in the district hospitals.

OBJECTIFS DE L'ÉVÉNEMENT

Two groups of training to be conducted back-to-back and facilitated by 6 trainers:

- Cervical & breast cancer screening training group: will have 19 nurses and doctors
- Cervical cancer and breast data reporting from health facilities henceforth, Mozima application: will have 17 data managers

OBJECTIFS D'APPRENTISSAGE

Participants will learn both the theoretical and practical aspects of cancer screening with hands-on training at the hospital

CONTENU ET STRUCTURE
