CONTEXTE

The e-tutorial provides in-depth and wide-ranging guidance on how to mainstream the 2030 Agenda for Sustainable Development into each national strategy and policy. It is based on the UN Development Group's (UNDG) Reference Guide "Mainstreaming the 2030 Agenda for Sustainable Development". Case studies introduce innovative examples of how some countries have begun

to develop and use relevant tools, and activities offer an opportunity to gain a better understanding and useful skills. Although this training tool has been primarily designed for government officials and development practitioners, it is also publicly available.

It is available in English and Arabic. The Arabic version of the e-tutorial was translated and implemented by the United Nations Economic and Social Commission for Western Asia.
