Price: \$0.00

Event Focal Point Email: pft-elearning@unitar.org

Partnership: Shanghai Climate Week

#### **BACKGROUND**

This online course is a self-paced course developed by the United Nations Institute for Training and Research (UNITAR) and the Shanghai Climate Week Executive Committee.

UNITAR

The course provides participants with a practical guidance on how to adapt
sustainable mindset to encounter the socio-economic and environmental
challenges of our time. This e-learning course aims to equip participants to be
familiar with the UN SDGs and its practices in the real world. It will provide
participants with a rich set of knowledge in order to enhance the resilience,
sustainability, and reliability for present and future generations.

### **EVENT OBJECTIVES**

It is expected that, by the end of the course, participants will be better positioned to: Participants start their own personal SDG journey from ideal to action, learning lectures from experts to understand how sustainable development affects our communities and world.

1.Promote and expand the awareness of UN's missions, visions and SDGs to the public.

2. Evaluate and adapt sustainable mindsets for crises such as climate actions.

3.Describe the principles and dynamics of SDGs, and how they meet in a daily life.

☐ SDGs─────

#### CONTENT AND STRUCTURE

The course is divided into two parts: Fundamentals of SDGs - knowledge and examples of Sustainable Development Goals and practices (Module 1-2) and In Focus - Actions for Sustainable Development (Module 3-4).

• Module 3. SDGs for the Public - Enterprise Action

<ul> <li>3</li></ul>				
METHODOLOGY				
This e-learning course is developed in English and Chinese and consists of four modules, including overall learning objectives, as well as learning objectives specific to each module. Throughout the lessons, participants are presented with formative "test your knowledge" questions to check comprehension of the concepts, examples and tools presented. The modules also comprise open-ended discussions (not graded) offered through the lesson section of the learning platform to reflect on the topics and share their experiences.				
The modules are further enriched by a diverse layer of real-world testimony provided through expert recorded webinars. For example, in the Module 1 - 3, high-level specialists from the UN system will join with us in the webinars to bring their UN case studies. Similarly, in the Module 4, Enterprises Actions and Youth				
Engagements, we will invite various speakers of responsible corporates and youth leaders to share their own sustainable stories. Moreover, we will have a special				
section, Local Youth Voices, to hear their expectations of sustainability.  1-3				
4 "IIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIII				
To assess the effectiveness of the course and the knowledge and skills acquired, each module will have ex-ante and ex-post summative assessments. Learners will				
answer 3-4 questions at the start of each module to help get a baseline of the learner's knowledge level to be able to compare with results after taking the module. These will not be graded, nor will there be feedback. Following the				
module, they will take a 20-question graded assessment that includes the questions they encountered at the beginning.				
3-4				
20				

For this course to be the most rewarding and to teach you lessons that can be

applied in your daily work, we recommend that you do not rush through the modules and complete a module in one sitting. Rather, you will better absorb the material by spending at least 3-4 days per module and stretching out the course over 4 weeks.  3-4 3-4 3-4 3-4 3-4 3-4 3-4 3-4 3-4 3-4			
The course is free, and participants who complete the programme will receive a joint Certificate of Completion from UNITAR and Shanghai Climate Week.
