

Lead Paint - Reformulation is Entirely Possible

Planet

Type:	Course
Location:	Web-based
Duration:	1 Days
Programme Area:	Chemicals and Waste Management
Website:	https://www.unitar.org/cwm
Price:	\$0.00
Event Focal Point Email:	cwm@unitar.org
Partnership:	UNEP (502)

BACKGROUND

The Lead Paint Reformulation course is based on the **Lead Paint Reformulation Technical Guidelines** and guides learners through the lead elimination from paint using interactive and engaging methods. It consists of seven modules covering key topics such as lead hazards, reformulation steps, regulatory compliance, testing, and market adoption. Each module includes animated explainers, quizzes, case studies, and interactive tools to reinforce learning. Participants will explore real-world scenarios, economic considerations, and best practices for transitioning to lead-free paint. The course equips policymakers, manufacturers, and SMEs with the knowledge and resources needed to

implement safer, sustainable paint production.

ADDITIONAL INFORMATION

TECHNICAL REQUIREMENTS

The course can be completed on any computer (Windows and Mac) or mobile device. Any internet browser is compatible as long as it has been updated to its latest version.
