Price:	\$450.00
Event Focal Point Email:	envgov@unitar.org
Partnership:	UNEP

BACKGROUND

The concept of a green economy is receiving increasing international attention, as countries explore new patterns of development that take into account economic, social and environmental sustainability considerations. The recent UN Conference on Sustainable Development (Rio+20), June 2012, reaffirmed the role of a green economy in achieving sustainable development.

In order to provide interested stakeholders from government, business, civil society and academia with an introduction to the green economy concept the United Institute for Training and Research (UNITAR) and the United Nations Environment Programme (UNEP) are offering an interactive e-learning course.

EVENT OBJECTIVES

Participants will learn about different concepts and facets of the green economy, as well as global, national and sector-specific challenges and opportunities to advance low-carbon, resource efficient and socially inclusive development. Additionally, participants will begin to develop basic skills for applying the green economy concept in a real world economic, policy and/or personal context.

LEARNING OBJECTIVES

After completing the course, participants will be able to:

- Define the concept of a green economy and explain its value
- Identify enabling conditions for greening national economies
- Identify principal challenges and opportunities for greening key economic sectors
- Describe national planning processes in support of a green transformation
- Recognize international and regional initiatives and support services to foster green development
- Apply the green economy concept to a real world economic, policy and/or personal context

CONTENT AND STRUCTURE

The course is composed of 5 modules:

- Module 1: Introduction to a Green Economy: Rationale, Concepts and Principles
- Module 2: Enabling Conditions for Advancing a Green Economy
- Module 3: Greening the Economy: Sectors and Strategies
- Module 4: Developing a Balanced and Inclusive Green Economy

- Module 5: International Developments and Support to Advance a Green Economy

METHODOLOGY

The course pedagogy is adapted to professionals in full-time work. Participants are provided with the opportunity to learn through various experiences: absorb (read); do (activity); interact (socialize); and reflect (relate to one's own reality). The total number of learning hours is 40 over an 8 week period. During weeks 1-5 the reading of an e-book is complemented by a range of learning activities and experiences that include interactive exercises, discussion forums, and an applied case study. Weeks 6-8 are reserved for wrap-up and completing course assignments.

TARGETED AUDIENCE

The course targets groups and individuals that are interested in obtaining a general understanding about the green economy concept and latest developments. They include:

- Civil servants in national Ministries, provincial departments and local authorities
- Diplomats from Permanent Missions and Ministries of Foreign Affairs
- Environmental managers in private sector and civil society organizations
- Faculty, researchers and students
- Interested citizens

ADDITIONAL INFORMATION

Certificate of Completion

A *Certificate of Completion* will be issued by UNITAR to all participants who complete the course-related assignments and assessments successfully.

Technical Requirements

Access to internet is an essential condition for participation. UNITAR recommends the following as a minimum in hardware and software to take our e-Learning courses. Please consult your Network Administrator or Systems person to ensure

that you have the following:

- Platform: Windows 95, 98, 2000, NT, ME, XP or superior; MacOS 9 or MacOS X; Linux
- Hardware: 64 MB of RAM, 1 GB of free disk space
- Software:
 - Adobe Acrobat Reader
 - Adobe Flash Player
 - Microsoft Office (Windows or Mac) or Open Office
- Browser: Internet Explorer 7 or higher or Firefox 3.6 or higher
- Modem: 56 K
