### BACKGROUND

The aviation and airport management sector faces increasing challenges related to operational efficiency, safety, sustainability, and governance. In response to these needs, CIFAL Mérida, in collaboration with ACI-LAC and UNITAR, organized

the *Diplomado Internacional en Gestión Aeroportuaria* to strengthen the strategic and managerial capacities of senior airport professionals. The programme aligns with CIFAL's mandate to deliver high-quality, applied training that supports sustainable development and institutional leadership.

## EVENT OBJECTIVES

- Understand key principles of modern airport management
- Apply strategic and operational tools to airport administration
- Analyze regulatory, operational, and organizational challenges in the aviation sector
- Strengthen leadership and management skills relevant to senior airport professionals

## CONTENT AND STRUCTURE

The diploma programme is structured into thematic modules covering:

- Airport management and operations
- Strategic planning and governance
- Regulatory and institutional frameworks
- Management tools for senior airport executives
- Case studies and applied learning activities

## METHODOLOGY

- Online lectures delivered by subject-matter experts
- Case-based learning and applied examples
- Interactive sessions and guided discussions
- Structured modules with progressive learning outcomes

## TARGETED AUDIENCE

- Senior airport management and executives
- Directors and decision-makers in aviation authorities
- Airport administrators and operational leaders

- Professionals involved in airport governance and management
