CONTENT AND STRUCTURE

UNITAR and Empower School of Health offer, every month, interactive one-hour webinars on a variety of topics such as Data Management in Health Procurement and Supply Chain, Creating Green, Sustainable Supply Chains in a Circular Economy, Achieving SDG3: Strengthening National and Local Capacity to ensure healthy lives, Public Sector Leadership: Strengthening Post-Crisis Supply Chain Resilience, among others. No matter where your taste lies, there is a topic for you. With industry-leading experts, you are sure to have an insightful experience.

METHODOLOGY

1 - 1.5 hours webinars with expert speakers on the topic, with a Q and A Session in the end

TARGETED AUDIENCE

1. Public health professionals seeking to enhance their understanding of pharmaceutical systems, data management, and supply chain resilience.
2. Procurement and supply chain specialists working in health systems, NGOs, or international organizations who want to strengthen their technical and strategic knowledge.

3. Government and Ministry of Health officials involved in pharmaceutical regulation, procurement, policy development, and health systems strengthening.
4. Professionals working in global health organizations, including UN agencies, donors, and development partners engaged in health programmes and supply chain operations.
5. Pharmaceutical and healthcare industry professionals interested in the broader policy, management, and sustainability dimensions of the pharmaceutical value chain.
6. Early-career professionals and recent graduates exploring career opportunities in global health, pharmaceutical management, and health supply chain management.
7. Students and researchers in fields such as public health, pharmacy, health economics, and health policy who are interested in practical insights from industry experts.
