BACKGROUND

Cities and communities increasingly face complex sustainability challenges requiring innovative, collaborative, and technology-driven solutions. Young people play a critical role in shaping sustainable futures and driving innovation aligned with the Sustainable Development Goals (SDGs). Creating spaces where

youth, institutions, and the private sector can collaborate contributes to strengthening local capacities and accelerating sustainable development.

In this context, CIFAL Málaga co-organized the Málaga Sustainability Hackathon in partnership with Oracle and local institutional partners. The initiative provided a collaborative platform for young participants, innovators, students, and professionals to develop practical and technology-based solutions addressing sustainability and urban development challenges.

EVENT OBJECTIVES

- Promote innovation and youth participation in sustainable development initiatives.
- Strengthen awareness and understanding of the Sustainable Development Goals (SDGs).
- Foster collaboration between public institutions, private sector actors, academia, and civil society.
- Encourage the development of practical and technology-driven sustainability solutions.
- Enhance problem-solving, teamwork, and innovation skills among participants.

LEARNING OBJECTIVES

To teach children about the 17 Sustainable Development Goals in an interactive way with a workshop.

CONTENT AND STRUCTURE

The hackathon included:

- Opening and orientation sessions on sustainability challenges and SDGs
- Team-based innovation workshops
- Mentoring sessions with experts and professionals
- Collaborative problem-solving activities
- Development and presentation of sustainability-focused project proposals
- Networking and stakeholder engagement opportunities

The initiative focused on practical innovation related to sustainability, smart cities, technology, civic participation, and social impact.

METHODOLOGY

- Collaborative and experiential learning
- Team-based innovation challenges
- Mentorship and expert guidance
- Interactive workshops and brainstorming sessions
- Project presentations and peer exchange

TARGETED AUDIENCE

The workshop was specific for students from I.E.S. Nuestra Señora de la Victoria.

ADDITIONAL INFORMATION

- Young students
