| Partnership: | Glasgow Green Year 2015, Glasgow City Council, Architecture and Design Scotland |

BACKGROUND

Greener Legacy - Following the unrivalled success of the Commonwealth Games in Glasgow this summer, we invite you to attend an event celebrating Glasgow's Green journey, where we will reflect on achievements to date outlining Glasgow's vision for the future: From Steam to Green.

The 2014 Commonwealth Games was a significant driver for Glasgow to consolidate its green journey at a local, national and international level. Key

projects and initiatives have galvanised communities, facilitated businesses and the private sector to contribute to a growing green economy and regeneration programmes throughout the city.

EVENT OBJECTIVES

This event will examine some of the successes and milestone events that have marked the journey, in particular the [A+DS Green2014 exhibition](#), which has provided a platform to showcase the greener legacy projects at both a local and national level. Positive stories from Glasgow 2014's environmental legacy are already emerging and Glasgow is ensuring that this momentum is maintained through the City's Green Year in 2015.

Please join us to be part of the passing of the green baton on this journey from the early groundwork of the Commonwealth Games, through to successful [Green2014 exhibition](#) and on to the [Green Year 2015](#) and beyond.
