Learning Environment for integrated Planning (LEiP) simulation game

Accelerating SDG Implementation

Type:	Other
Location:	Web-based
Duration:	0 Days
Thematic Area:	Other
Website:	http://www.unitar.org/pillars/cross-fertilizing-knowledge/2030-agenda-online-tr...
Price:	$0.00
Event Focal Point Email:	a2030@unitar.org
Partnership:	Millennium Institute

BACKGROUND

UNITAR and Millennium Institute have jointly developed a simulation game called Learning Environment for Integrated Planning (LEiP) based on the Millennium Institute's iSDG Integrated Simulation Tool. The learning environment uses a multi-player, asymmetric, multi-laptop blended approach. This game simulates an investment planning process of a country to achieve selected SDGs. This exercise instantly demonstrates progress towards a selected SDG, and shows cross-sectoral effects, as well as synergies and trade-offs with other selected goals. The

LEiP uses a model developed on trends characterizing the development of an average LDC, SIDS, middle-income and high-income countries.
