Learning Environment for integrated Planning (LEiP) simulation game

Accelerating SDG Implementation

Type: Other
Location: Web-based
Duration: 0 Days
Programme Area: Other
Website: http://www.unitar.org/pillars/cross-fertilizing-knowledge/2030-agenda-online-tr...
Price: $0.00
Event Focal Point Email: a2030@unitar.org
Partnership: Millennium Institute

BACKGROUND

UNITAR and Millennium Institute have jointly developed a simulation game called Learning Environment for Integrated Planning (LEiP) based on the Millennium Institute’s iSDG Integrated Simulation Tool. The learning environment uses a multi-player, asymmetric, multi-laptop blended approach. This game simulates an investment planning process of a country to achieve selected SDGs. This exercise instantly demonstrates progress towards a selected SDG, and shows cross-sectoral effects, as well as synergies and trade-offs with other selected goals. The
LEiP uses a model developed on trends characterizing the development of an average LDC, SIDS, middle-income and high-income countries.
