

CIFAL Istanbul- Sustainable Urban Planning (Series)

People

Type:	Conference
Location:	Web-based
Date:	1 Oct 2020 to 15 Nov 2020
Duration:	6 Months
Programme Area:	Decentralize Cooperation Programme
Website:	http://cifalistanbul.org
Price:	\$0.00
Event Focal Point Email:	ahmet.aydemir@eas.bau.edu.tr
Partnership:	Bahçeşehir University

BACKGROUND

Urban Planning is key to foster development. Seeking solutions to urban planning issues in theories and practice of design, key concepts such as 'sustainable design', 'eco (logical) approaches', 'environmental design', 'green design', 'eco-friendly building', 'smart space', 'zero carbon emission' 'energy efficiency in conservation ', 'high performance space ', 'climate control ' have emerged. The concept of sustainability, which has become more important currently, will be discussed with its environmental, socio-cultural, economic and legal, universal and local and technological dimensions.

EVENT OBJECTIVES

The event aims to raise awareness for sustainable design within the scope of professional and ethical responsibility.

CONTENT AND STRUCTURE

The event covers topics as follows:

- Ecological Sustainability in Interior Architecture
