

Road Safety - High Visibility Enforcement Interventions
 This course provides a comprehensive overview of road safety interventions, focusing on high visibility enforcement. It covers the legal framework, operational aspects, and the impact of these interventions on road traffic safety. The course is designed for law enforcement officers and road safety professionals.

Type: Course
Location: Web-based
Duration: 4 Weeks
Programme Area: Decentralize Cooperation Programme
Website: <https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...>
Price: \$0.00
Event Focal Point Email: roadsafety@unitar.org
Partnership: Diageo

BACKGROUND

Road safety is a global challenge, with road traffic injuries and deaths remaining a leading cause of death and disability worldwide. In 2019, road traffic injuries and deaths claimed 1.35 million lives, with a significant proportion of these deaths occurring in low and middle-income countries. High visibility enforcement interventions have been shown to be an effective strategy to reduce road traffic injuries and deaths. These interventions involve the use of high visibility vests and reflective materials to increase the visibility of law enforcement officers and vehicles, thereby reducing the risk of collisions.

The e-Learning course “High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users

- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

LEARNING OBJECTIVES

By the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4 - High Visibility Enforcement (HVE) and its impact on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of HVE in changing road user behaviour and reducing road traffic injuries and fatalities related to drivers using alcohol
- Describe the impact of HVE on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of HVE in changing road user behaviour and reducing road traffic injuries and fatalities related to drivers using alcohol
- Describe the impact of HVE on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of HVE in changing road user behaviour and reducing road traffic injuries and fatalities related to drivers using alcohol

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4

- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol

CONTENT AND STRUCTURE

El curso está dividido en 5 módulos que se detallan a continuación:

- Módulo 1: Road Safety as a Sustainable Development Priority
- Módulo 2: What is a High Visibility Enforcement Intervention?
- Módulo 3: Case Study: Mexico "Conduce sin Alcohol" programme
- Módulo 4: Case Study: Dominican Republic "Tomatelo en Serio" programme
- Módulo 5: COVID-19: Good practices and precautions when using Breathalyzers

EN:

The course is comprised of 5 modules:

- Module 1: Road Safety as a Sustainable Development Priority
- Module 2: What is a High Visibility Enforcement Intervention?
- Module 3: Case Study: Mexico "Conduce sin Alcohol" programme
- Module 4: Case Study: Dominican Republic "Tomatelo en Serio" programme
- Module 5: COVID-19: Good practices and precautions when using Breathalyzers
