Cooperation for Sustainable Development Center

The Forum was organized in the framework of the project "National Monitoring of Electronic Waste: Kazakhstan, Uzbekistan, Tajikistan, Kyrgyzstan".

The goal of the National Forum was to create a platform for capacity building and strengthened stakeholder engagement, facilitate the exchange of international and regional best practices, and contribute to the development of e-waste management policies in Uzbekistan.

Session 1: E-waste: challenges and opportunities;
Session 2: International experience in e-waste management;
Session 3: E-waste in Uzbekistan: statistics, methods of handling and current problems;
Session 4: E-waste recycling projections - why it is important;
Session 5: Further development of e-waste management system in Uzbekistan;
Session 6: Implementation of the EPR system for e-waste.

State authorities;
