-  : CIFAL Honolulu, I Am a Scientist Outreach Program, Hawai'i Technology Academy

I Am A Scientist is an STEM outreach program that delivers exceptional hands-on STEM activities to Hawai'i and the broader Pacific. IAS is free and visits different classrooms and community events offering STEM activities that focus on biology, chemistry, forensic science, and more while focusing on the techniques and

equipment. The purpose is to make STEM more accessible and less intimidating. This month, IAS visited HTA offering a plant biology lesson!

plant biology, sustainability, culturally relevant education

plant biology, sustainability, culturally relevant education

none - classroom outreach

microscopy activity and observation practice for third graders

3rd graders

Due to the underage demographic, we were not allowed to collect names or emails of the students of the Hawai'i Technology Academy.
