-  : CIFAL Flanders, CCI Flanders, CCI Flanders

These two events focus on action-learning sessions related to sustainability, combined with recognition ceremonies and important updates. They serve as platforms to share innovative materials, introduce team members, and celebrate progress through awards, fostering collaboration and knowledge-sharing among stakeholders committed to advancing sustainable development practices.

To deepen participants' understanding of SDG implementation and sustainability, foster networking opportunities, and provide practical tools and strategies to integrate sustainable development into their organisations.

The content and structure of the event include three action learning sessions focused on sustainability, sharing experiences from the PCA2030 trajectories, awarding new PCA members for their achievements, and presenting updates and materials designed to support organisations in enhancing their sustainability strategy implementation.
