□□□□

In this course, we will introduce you to the the framework for monitoring and evaluating progress against the road map targets, also called, the M&E framework, which is the second document in the monitoring and evaluating framework for progress of the road map for NTDs 2021-2030. The M&E framework aims to facilitate tracking of progress against set goals while enabling course corrections to be made wherever necessary.

□□□□

Track the progress against set road map goals while enabling course corrections to be made where necessary.

In this course, we will introduce you to the second companion document to the road map, the framework for monitoring and evaluating progress against the road map targets, also called, the M&E framework. The M&E framework aims to facilitate tracking of progress against set goals while enabling course corrections to be made wherever necessary.

The monitoring and evaluating framework for progress of the road map for NTDs 2021-2030. In course 1 and 2 you learned about the road map for neglected tropical diseases for 2021-2030 and the Sustainability framework which puts NTDs programmes on the track to sets global targets and milestones to control, eliminate or eradicate 20 diseases and disease groups. You also learned about the cross-cutting targets aligned with both WHO's Thirteenth General Programme of Work and the Sustainable Development Goals, with strategies for achieving the targets during the next decade.

Neglected Tropical Disease (NTD) programme managers; professionals at national and international levels, working in the areas of:

- * Planning;
- * Implementation;
- * Health systems;
- * Health information management systems; and
- * Policy makers, managers, and researchers working within and beyond the health sector.

You will receive a Confirmation of Participation upon completing all the modules in this course. Please note that this award does not serve as a professional qualification.
