The road map for neglected tropical diseases 2021-2030 aims at guiding the global NTD community toward the achievement of the overarching, cross-cutting and disease-specific targets set for 2030.

- Describe how progress is accelerated towards the prevention, control, elimination and eradication of the 20 NTDs and disease groups now prioritized by WHO and attaining the SDGs.
- Demonstrate ability to facilitate alignment among Member States, donors, implementing partners, disease experts and all other stakeholders.

The course aims at providing the learner with key information on the road map and is structured around 8 modules: introduction to the course, introduction to NTDs, introduction to the road map, targets and milestones, how to accelerate programmatic action (pillar 1), how to intensify cross-cutting approaches (pillar 2), how to change operating models and culture to facilitate country ownership (pillar 3), and conclusions.

Approximate course duration: 2 hours
