	:	CIFAL Malaga , ICODESS (Instituto de Cooperación de Desarrollo Sustentable y Sostenible)

“The course is based on the promotion and enhancement of the concept of decentralization, which is usually referred to as the transfer of powers from central government to lower levels in a political-administrative and territorial hierarchy.” “The good performance of local governments depends on their ability to answer demands for transparency and public participation, as well as financial

sufficiency.”

Train the management staff of local governments in municipal management, for efficient and effective governance in favor of its territories and the people who comprise it

Train the management staff of local governments in municipal management, for efficient and effective governance in favor of its territories and the people who comprise it
