We are building a community that actively contributes to the local business ecosystem and supports the development of entrepreneurship in the region.

Building a local ecosystem of cooperation and exchange of experiences, establishing business relationships through cyclical events, each dedicated to a specific business aspect. Building and developing capacities among local entrepreneurs.

Combining practical knowledge with tools that help the participants better understand user/customer's needs and create more engaging experiences. The workshop combined substantive content with an inspiring perspective, and participants left with specific knowledge and tips to implement in their companies.
