- Contact Email** : info@itaarea.es
- Location** : CIFAL Merida

#### Summary

Air transport plays a critical role in sustainable development, supporting economic and social activities globally. However, environmental concerns remain a challenge, particularly in reducing CO<sub>2</sub> emissions. The MATSM aims to address these issues by training professionals in sustainable air transport management,

aligning with the United Nations 2030 Agenda for Sustainable Development.

To train participants to hold managerial roles in the air transport industry, with a strong emphasis on sustainability, innovation, and efficient operations. The program prepares professionals to make informed decisions that promote sustainable growth in airports, airlines, and related sectors.

- Understand the fundamentals of sustainable air transport systems
- Apply energy efficiency and CO<sub>2</sub> reduction strategies
- Evaluate organizational structures of airports and airlines
- Identify legal and policy frameworks in aviation
- Engage in proactive and critical discussions on corporate governance in the air transport sector

The program covers sustainability in airports and airlines, aviation law, aeronautical industry management, and air navigation. It includes practical case studies, executive-level lectures, and concludes with a graduation ceremony at the United Nations in Geneva.

Fully e-learning, based on asynchronous modules, proactive discussion forums, and real-world case study analyses. Includes mentoring from top-level industry professionals and interactive learning components.

Professionals seeking managerial roles in the aviation sector, including recent graduates and employees from airports, airlines, navigation service providers,

and associated companies.
