🏢 :	CIFAL Bangkok - AIT - Asian Institute of Technology

Climate change and decarbonization are among the most pressing global challenges, requiring coordinated action across academia, government, private sector, and civil society. *Decarbonization Nexus: Connecting Minds. Empowering*

Actions was organized as a multi-stakeholder platform to bring together diverse actors to exchange ideas, showcase innovations, and foster partnerships that support climate action, carbon reduction strategies, and sustainable development. CIFAL Bangkok participated as a partner in line with its mandate to support capacity development and dialogue on sustainable development issues in the Asia-Pacific region.

- To create a collaborative platform for dialogue and exchange on decarbonization and climate action.
- To connect academic institutions, practitioners, policymakers, youth, and the private sector around sustainability solutions.
- To highlight innovative approaches, technologies, and initiatives contributing to carbon reduction and net-zero pathways.
- To encourage cross-sector partnerships and collective action toward sustainable development goals.

he event was structured over two days and included:

- Thematic workshops on decarbonization, sustainability, and climate innovation
- Panel discussions with experts from academia, industry, and policy sectors
- Research and technology exhibitions related to climate action and sustainability
- Innovation showcases and collaborative sessions encouraging stakeholder engagement
- Networking opportunities to support partnership building

- Interactive workshops and facilitated discussions
- Panel sessions with expert speakers
- Exhibitions and demonstrations of sustainability solutions
- Hybrid engagement enabling both onsite and online participation

- Open dialogue and networking to encourage exchange of ideas and collaboration

- Academics and researchers
- Policymakers and government officials
- Private sector representatives
- Sustainability and climate practitioners
- Students and youth innovators
- International organizations and development partners
