Integrated capacity-building programme (training, executive education, workshops, policy dialogue, and multi-stakeholder engagement)

Lebanon faces complex socio-economic, governance, environmental, and financial challenges that require strengthened institutional capacity and

leadership grounded in sustainable development principles.

CIFAL Lebanon was established to support national and regional stakeholders in advancing the 2030 Agenda through practical, policy-oriented and executive-level training. Hosted by the Global CEO Alliance and ESA Business School, the Centre serves as a bridge between private sector leadership, academia, public institutions, and international organizations.

The Sustainable Development – Capacity Building Programmes consolidate CIFAL Lebanon’s activities across governance, ESG, youth empowerment, digital transformation, entrepreneurship, public-private dialogue, and sustainable leadership.

Overall Objective:

To strengthen institutional, corporate, and leadership capacities in Lebanon to advance sustainable development through integrated training, knowledge-sharing, and multi-stakeholder collaboration.

Specific Objectives.

- Enhance understanding and application of the SDGs in the Lebanese context
- Promote responsible business practices and ESG integration
- Strengthen public-private collaboration mechanisms
- Support youth leadership and entrepreneurship
- Foster good governance and ethical leadership
- Build resilience in economic and institutional systems
