The Learning Network Sustainable Development Flemish Agencies and Entities (hereafter referred to as LNSD Flemish Agencies and Entities) builds on a strong network of Flemish public institutions brought together by CIFAL Brussels. It connects departments, agencies, and public entities with extensive sustainability expertise and hands-on experience. Through a structured learning programme, participants exchange best practices, inspire one another, and collaborate more efficiently on sustainability initiatives. The network promotes knowledge sharing,

avoids duplication of efforts, and supports the uptake and scaling of successful practices. The preparation and delivery of the sessions take place in close cooperation with DKBUZA.

Event objectives

- Strengthen institutional understanding of ESG, CSRD, EU Taxonomy, and sustainability reporting frameworks.
- Facilitate exchange of experiences and good practices related to sustainable development implementation.
- Promote collaboration among public institutions, private sector actors, and sustainability experts.
- Enhance knowledge on circular economy, responsible procurement, climate action, and sustainable governance.
- Support organizations in translating sustainability ambitions into practical implementation strategies.

Learning objectives (Only for training-related events where learning is central)

Participants will be able to:

- Identify key sustainability reporting frameworks and regulatory developments at the European level.
- Analyze practical approaches to ESG integration and sustainable governance.
- Apply sustainability tools and methodologies within organizational contexts.
- Strengthen collaboration and stakeholder engagement related to sustainability implementation.
-

The visit allowed for members of Flemish agencies and entities to learn more about this circular economy site in Antwerp. Through an onsite tour, presentations, Q&A sessions, and informal networking, they gained a deeper understanding of their work and explored meaningful ways to collaborate

The programme consisted of four thematic sessions covering:

- Responsible public procurement tools
- Corporate Sustainability Reporting Directive (CSRD)
- EU Taxonomy and ESG frameworks
- Sustainability strategies in tourism and audiovisual sectors
- Circular economy and environmental management systems
- Sustainable storytelling and communication
- Sustainable development reporting and SDG monitoring
- COP29 debriefing and international sustainability developments
- Climate governance and transition policies
- Education and behavioral change for sustainability

- Expert presentations and technical briefings
- Interactive workshops and group discussions
- Case-study analysis and institutional showcases
- Peer-learning and knowledge exchange
- Multi-stakeholder dialogue and collaborative learning approaches

- Sustainability professionals
- Public administration representatives
- ESG and CSR practitioners
- Policy advisors and government officials
- Corporate sustainability managers
- Researchers and academics
- Environmental and circular economy experts
- Private sector representatives
- Civil society organizations
