In light of the ongoing COVID-19 pandemic, the United Nations Conference on Trade and Development (UNCTAD) and the United Nations Institute for Training and Research (UNITAR) have joined efforts to host a series of special Virtual Roundtable on the impacts of the pandemic on entrepreneurship and the needs

to enhance its role in a resilient, green and inclusive recovery. The initiative aims at providing insights to policy makers and MSMEs to better understand and navigate this unprecedented situation.

This 4-part series will bring together international experts to discuss the role of entrepreneurship in a post-COVID-19 recovery. Experts will be sharing practical experiences and views on challenges and opportunities entrepreneurs are facing in the current global crisis. They will also debate on policy reforms needed to enhance the role of entrepreneurship in a sustainable recovery and advancing the sustainable development agenda.

The objective of this virtual discussion is to identify and analyse the main impacts of COVID-19 on entrepreneurs and Micro-, Small and Medium-sized Enterprises (MSMEs), their reactions, as well as the support they have received to face the current situation. Discussions will provide an opportunity for an intermediate impact assessment of the disruption, which would help to identify a set priority policies and measures for immediate basic re-opening measures for small business-owners, in order to facilitate resurgence and develop a longer-term social and economic recovery strategy where entrepreneurship and MSMEs play a central role.
