Worldwide, road traffic injuries claim more than 1.35 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes—such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

The e-Learning course “High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users

- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

Objectives

By the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4 - High Visibility Enforcement (HVE) and its impact on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol
- Describe the impact of the High Visibility Enforcement (HVE) on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety
- Describe the impact of the High Visibility Enforcement (HVE) on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4

- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol

Objectives

By the end of the course, participants will be able to:

- Module 1: Identify the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Module 2: Explain the HVE approach and its components
- Module 3: Analyze the "Conduce sin Alcohol" programme in Mexico
- Module 4: Analyze the "Tomatelo en Serio" programme in the Dominican Republic
- Module 5: COVID-19: Good practices and precautions when using Breathalyzers

EN:

The course is comprised of 5 modules:

- Module 1: Road Safety as a Sustainable Development Priority
- Module 2: What is a High Visibility Enforcement Intervention?
- Module 3: Case Study: Mexico "Conduce sin Alcohol" programme
- Module 4: Case Study: Dominican Republic "Tomatelo en Serio" programme
- Module 5: COVID-19: Good practices and precautions when using Breathalyzers

International Road Traffic Law Enforcement Agency (IRLEA) is a global organization that provides training and support to law enforcement agencies in various countries. The agency focuses on road safety and traffic law enforcement, offering courses and seminars to improve the skills and knowledge of police officers and other law enforcement personnel. IRLEA also provides technical assistance and advice to help countries strengthen their road traffic laws and enforcement systems.

EN:

The course includes interactive lessons supported by additional readings and learning materials, coupled with short quizzes to evaluate learning objectives.
